DINKC STUDIOS - FOUNDER, ILLUSTRATIVE DESIGNER - ARTIST - 2012 - Present

I currently run a full-time freelance studio specializing in illustrative design, building brands, apparel design/production, merchandise, murals, and custom artwork. The DINKC brand hosts my artwork while also assisting in developing creative concepts for various clients on a project to project basis. From these experiences, I've found that versatility is a necessary skill in networking with various art communities while providing opportunities to make new relationships and find events, galleries, and clientele in different states for my own brand.
